6. SOLAR POWER LIGHTING SYSTEMS

This Integrated Solar Lights have all components integrated into one fixture.

The Integrated Solar Lights are powered by Lithium Ion Batteries, decreasing charging time, provides maximum depth of discharge enabling longer run times and reduces self-discharge.

The Solar Grid Integrated Street Lights are the next generation of Solar Street Light Systems.

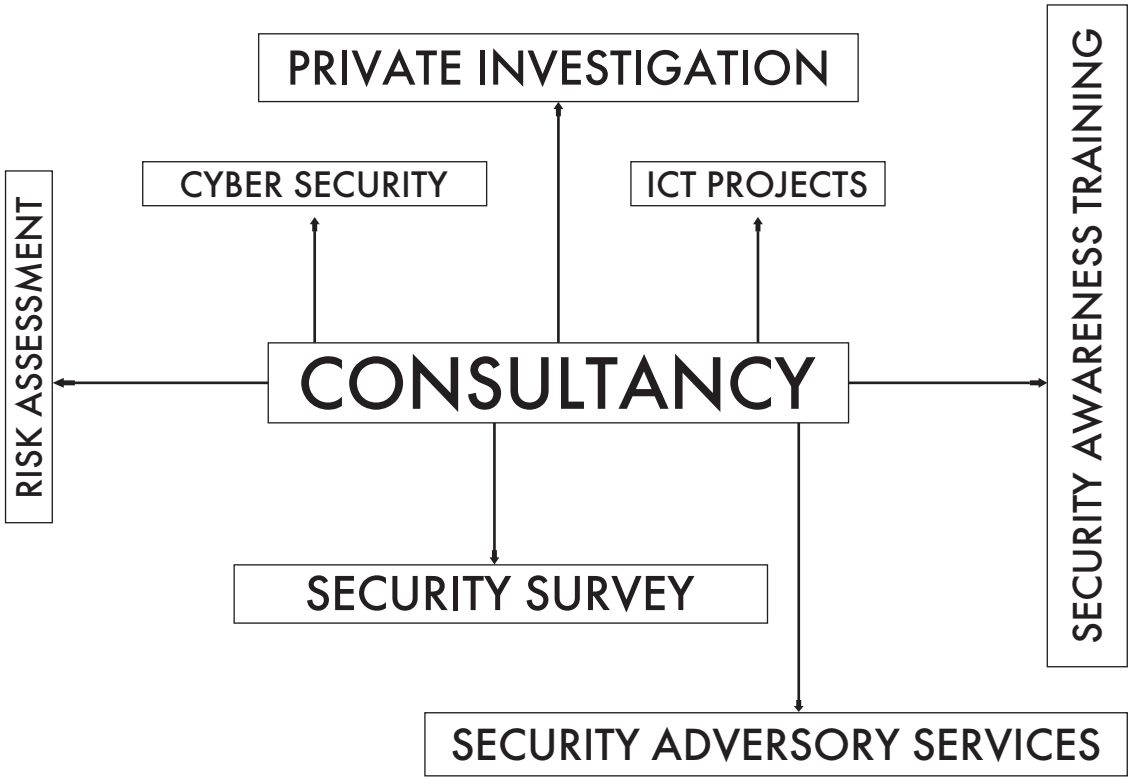

All of the components including the Solar Panel, Lithium Ion Batteries, Charge Controller, Light Controller, and Light Sensor etc. are housed inside a single Aluminum body. The integrated design not only makes the fixture aesthetically pleasing but it also makes installation and maintenance extremely easy.

All you need to do is install the fixture on a pole or on a wall – no wires to run, no digging for batteries and no installation of panels.
